

Woman and Baby Save Train From Bombing

(Correspondence of Associated Press)
WARSAW, Oct. 29.—American fliers composing the Kosiutko squadron of the Polish army have had many opportunities to bomb the train of six cars which General Budenny, the bolshevik cavalry leader, used as headquarters at the front, but they always refused to do so because they knew his wife and baby lived on board the train. On several occasions when the American fliers were pretty well that the cavalry commander was at his traveling home for a visit with his wife and youngster, but they always let pass the chance to do him or his train damage.

It was reported some time ago that Budenny had been wounded by a bomb dropped by one of the American fliers while he was engaged in one of his spectacular

cossack hat, khaki tunic, black raids on the southern Polish front before the armistice was declared. It was also said that he had taken up arms against the reds and that he might join forces with General Wrangel.

General Budenny is a Kuban cossack and was a sergeant major in the old imperial Russian army. He has been seen many times from the air by the Americans and is described as a short, stocky man with quite an intelligent countenance despite the wild outdoor life he has led for years.

His dress was picturesque, consisting most of the time of a black tunic, black trousers with bright blue stripes and high black boots. He is an excellent horseman and often led his troops into battle against the Poles.

MANY ATTEND ARMY SCHOOLS

(By Associated Press)
SAN FRANCISCO, Cal., Nov. 22.—More than 100,000 soldiers are attending the schools established by the United States army, and when the program is made fully operative there will be more soldier students in the country than there are regular college students, according to army officers here.

In addition to the courses giving training in trades and professions, schools for illiterates have been established by the army. In these study centers men who can neither read nor write English are given a basic education. More than 2000 teachers will be employed in the army schools.

Much valuable constructive work is done in other lines and soldier-students may become practical, wage-earning printers, plumbers, painters, woodworkers, blacksmiths, farriers, radio operators and telegraphers.

A large meat packing establishment in Chicago recently has employed "meat" inspectors four graduates of the army school, at salaries of \$250 a month. In the same city a firm of bread bakers is paying salaries of \$35 to \$55 a week to graduates of the army school for cooks and bakers.

DARTMOUTH TEAM PLAYS ON COAST

(By Associated Press)
SAN FRANCISCO, Cal., Nov. 22.—One eastern football team, representing Dartmouth college, will appear on the Pacific coast this month in a game against the University of Washington at Seattle November 27. Another eastern team probably will come west next month to play a western team in the annual New Year's day game at Pasadena, California.

The Dartmouth game will be the first played in a new concrete stadium being rushed to completion on the Washington campus.
